Program outcomes, program specific outcomes and course outcomes for all programs offered by Gour Mahavidyalaya, Mangalbari, Malda-2021-2021

Programme Specific Outcomes: A high priority task in the context of future education development agenda in India is fostering quality higher education. Further improvement of quality of higher education is considered critical for enabling effective participation of young people in knowledge production and participation in the knowledge economy, improving national competitiveness in a globalized world and for equipping young people with skills relevant for global and national standards and enhancing the opportunities or social mobility. Being the premier institution in a semi-urban area dominated by S.T., S.C. , OBC, Minority students, the college has a particular mission of mainstreaming such peripheral and marginalized sections of the society by empowering them through education. The vision of the college is to empower them through proper education so they can fight the gender bias in society and as conscious citizens contribute in Nation building. In consonance with the demands of globalised knowledge economy, the mission of the college is to develop human resource through theoretical knowledge and vocational expertise. The College aims at creating thinkers as well as innovators. Curriculum is the heart of any educational system. Different Boards of studies of UGB have prepared modern Curriculum. The outcome based curriculum provides the teacher very specific

targets which he can achieve through the selected instructional process as compared to the objective based curriculum which provides general outcomes. :**Department of Arabic: Department**

of Arabic Programme Outcomes:(3 year Honours/General,CBCS PROGRAMME-Honours and General))

: Department of Botany: Department of Botany: Programme Outcomes: (3 year Honours and General,CBCS-Honours-General)

***The program also empowers the graduates to appear for various competitive examinations or choose the post graduate programme of their choice. *The course helps the students to acquire core competency in the subject. *The course helps the students understand the genetic diversity on the earth. *It ensures team workmanship in order to serve efficiently institutions, industry and society.**

Department of Chemistry: Programme Outcomes: (3 year Honours and General,CBCS-Honours-General)

***The program also empowers the graduates to appear for various competitive examinations or choose the post graduate programme of their choice. *An increased understanding of fundamental concepts and their applications of scientific principles is expected at the end of this course. Students will become critical thinker and acquire problem solving capabilities. * The course helps to achieve the skills required to succeed in graduate school, professional school and the chemical**

industry like cement industries, agro product, Paint industries, Rubber industries, Petrochemical industries, Food processing industries, Fertilizer industries etc. : Department of **Computer Science:**

Department of Computer Science: and BCA(Honours)Programme

Outcomes: (3 year Honours and General,CBCS-Honours-General) *The

program also empowers the graduates to appear for various competitive examinations or choose the post graduate programme of their choice. *

Apply the knowledge of mathematics, science, and computing to the solution of complex scientific problems. *

The course helps the students to identify, formulate, research literature, and analyze complex scientific problems reaching substantiated conclusions using first principles of mathematics, natural sciences,

and applied sciences. **Specific Programme Outcomes:** *Graduates can design, implements, test, and evaluate a computer system,

component, or algorithm to meet desired needs and to solve a computational problem. *

The course helps to enhance skills and adapt new computing technologies for attaining professional excellence and carrying research :

Department of Food and Nutrition: Department of Food and Nutrition: Programme

Outcomes: (3 year Honours ,CBCS-Honours) The course “Fundamentals of Food and Nutrition” aims at developing basic understanding about nutrition, its effect on human health and newer advances in food technology. A successful completion of this course will enable students to(a) understand both fundamental and applied aspects of food science. They will be able to explain functions of specific nutrients in maintaining health, identifying nutrient specific foods and apply principles from the various facets of food science and related disciplines to solve practical as well as real-world problems, and (b)use current information technologies to locate and apply evidence-based guidelines and protocols and get imparted with critical thinking to take leadership roles in fields of health, dietetics, special nutritional needs and nutritional counseling. : **Department of Mathematics:**

Department of Mathematics: Programme Outcomes: (3 year Honours and General,CBCS-Honours-General)

***The program also empowers the graduates to appear for various competitive examinations or choose the post graduate programme of their choice.**

*** The Learning Outcomesbased Curriculum helps to enhance knowledge, understanding, skills, attitudes, values and academic achievements sought to be acquired by learners at the end of these programmes. * The course enhances the capability of demonstrating comprehensive knowledge of mathematics and understanding of one or more disciplines which form a part of an undergraduate programme of study.**

Department of Physics: Department of Physics: Programme Outcomes: (3 year Honours and General,CBCS-Honours-General)

***The program also empowers the graduates to appear for various competitive examinations or choose the post graduate programme of their choice. *The course gives the idea about what is science, what is scientific temper,history of science and scientific revolutions**

*** It makes aware of a brief history of physics, giving emphasis on the birth of quantum theory using black body radiation, photoelectric , X rays and DeBroglie waves and a general idea about theory of relativity :**

Department of Zoology: Department of Zoology: Programme Outcomes: (3 year Honours and General,CBCS-Honours-General)

***Students gain knowledge and skill in the fundamentals of animal sciences, understands the complex interactions among various living organisms and can analyze complex interactions among the various animals of different phyla, their distribution and their relationship with the environment. *The course helps to understand various concepts of genetics and its importance in human health. *The course creates an awareness of the impact of Zoology on the environment, society, and development outside the scientific community.**

**B.VOC Degree:Health Care: Programme
Outcome(from 2020-21):**

After successful completion of the course, the candidate can work in Government/private Hospitals, Medical Software Companies, Health Insurance Companies and Hospital Consulting firms as Hospital Front Desk Coordinator, Assistant Duty Manager, Patient Relation service, Patient Relation Associate, etc.

In short after completion of the B.Voc programme, the graduate becomes a Multi Skilled Health Worker capable to manage entire patient life cycle.
