

2.3.2. Teachers use ICT enabled tools for effective teaching-learning process.(within 500 words)

Response: Broadly, ICT in education can be defined as “diverse set of technological tools and resources used to communicate, and to create, disseminate, store, and manage information.” These technologies include computers, the internet, broadcasting technologies (radio and television), and telephone communication. It is a tool that can be effectively utilised to enhance, improve and complement learning-skills already in use that is the conventional methods of pedagogy that have been used so long. To increase the effectiveness and efficiency of education in all

levels, the computer the internet, mobile, laptop have been used, in the recent past. Our 68 faculty members have been using ICT tools(Laptop, Computer, Mobile Google meet, WhatsApp) for effective teaching and learning.
