WAP in C to find the sum of elements on both diagonals of a square matrix.

WAP in C to print the matrix alongwith row and column sum.

6. WAP in C to find the divisors of a positive integer.

WAP in C to calculate the frequency of all characters in a string of characters.

8. WAP in C to find "C,.

B II (Three Year G) Under 1+1+1 System

2008

#### COMPUTER SCIENCE (General)

Sixth Paper

(Practical)

(Revised New Syllabus)

Time: Three Hours

Full Marks: 50

Practical = 35

Viva-voce = 15

 Write a program in C to find the smallest and second smallest number among a list of n numbers.

Write a C program to find roots of a quadratic equation using switch statement.

 Write a C program to reverse a negative integer. For example if the entered number is - 5428 then the out put of the program should be 8245.

16/18 - 100

(4)

 WAP in C to test whether a string is polindrome or not.

- 15. WAP in C to evaluate a postfix expression.
- Write a program in C to calculate the income tax based on salary.

Salary  $\leq$  10000. Tax = 0

 $10000 < Salary \le 15000 \text{ Tax} = 10\% \text{ of salary}$ 15000 < salary, Tax = 20% of salary.

16/18 - 100

(3)

 WAP in C to display word equivalent of a two digit number, (eg. 99 - Ninety Nine).

 WAP in C to find the number of vowels in a given sentence.

 Write a program in C to determine whether a number is prime or not.

- WAP in C to find the sum of the number which are divisible by 7 and less than 500.
  - 13. WAP in C to find the sum of two matrices.

16/18 - 100

### (2)

- Write a C program to find the number of vowels in a given sentence.
- Write a program in C to convert (A+B)/(C-D) into its equivalent postfix expression.
- Write a C program to find the HCF of three numbers.
- 6. Write C program to find the LCM of two numbers.
- Write a C program to determine whether a number is prime or not.
- Write a C program to sort 12 numbers using bubble sort.

BSc/G/Pract./II/1+1+1/09

## BSc (Gen) Part-II (1+1+1) Practical Exam., 2009

# COMPUTER SCIENCE (General)

SIXTH PAPER

( Practical )

( Revised New Syllabus )

Time: 3 hours

Full Marks: 50

The questions are of equal value.

Answer any one question on Lottery basis.

Practical: 35

Viva voce: 15

( Algorithm and flowchart are required. )

- Write a program in C to find the smallest element and its location of a 5×5 matrix.
- Write a program in C to multiply two matrices A(3×4) and B(4×3), output must be in the matrix form.

10R-100/27

[ Turn Over ]

 Write a program in C to create a sequential file and write 5 records into that file.

Write a C program to convert a binary number to its equivalent octal number.

16. WAP in C to find "C,.

\* \* \*

9. Write a C program to do the following :

Input : Amal Kumar Das

Output : A. K. D.

 Write a C program to find the sum of the numbers which are divisible by 11 and less than 300.

Write a C program to reverse a string.
 e.g., Bimal Kanti Saha — input
 Saha Kanti Bimal — output

 Write a C program to print the sum of two matrices (4×4) in the matrix form.

 Write a C program to test whether a string is palindrome or not. (2)

Write a program in C to find out factorial of a number.

Write a program in C to find the sum of first 20 even numbers.

Write a program in C to find out the number of times a particular character used in a sentence.

Write a program in C to convert (A + B - C)
 (D + E) (x \* y/z) into its equivalent post fix notation.

 Write a program in C to write a name given below Input = Narayan Chandra Das To output = Mr. N.C. Das P-II(1+1+1)G/(Pr.)/12 ,2012 COMPUTER SCIENCE (General)

Sixth Paper (Practical)

Full Marks: 50

Time: Three Hours

The figures in the margin indicate full marks.

Answer any one question on lottery basis.

(Practical = 35, Viva-voce = 15).

(Algorithm and flow chart are necessary).

- Write a program in C to find out the location of an integer from a list of ten items using linear search.
- Write a program in C to find out the GCD of two numbers.

14. Write a program in C to find S in the following series:

$$S = 1 + (1+2) + (1+2+3) + (1+2+3...n) + ...n$$

 Write a program in C to find the sum of first 10 natural numbers which are divisible by 5.

Write a program in C to check whether a word is palindrome or not. (3)

Write a program in C to find out the sum of first 10 fibonacci numbers.

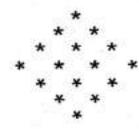

Write a program in C to generate all the Armstrong numbers between 100 to 9999.

Write a program in C to generate Flyod's triangle.

11. Write a program in C to generate Pascal's triangle.

Write a program in C to multiply two 4 × 4 matrices.

Write a program in C to convert an octal number into a binary number.

4. Write a C program to print this series.

5. Write a C program to multiply two matrices.

P-II (1+1+1)G/Pr/13

2013

COMPUTER SCIENCE (General)

Sixth Paper (Practical)

Full Marks: 50

Time: Three Hours

The figures in the margin indicate full marks.

Answer one question on lottery basis.

Algorithm and Flowchart are must.

Practical - 40

Viva-voce - 10

 Write a C program to convert Decimal to hexadecimal.

Write a C program to print the series and sum of the series.

11/1-125

- Write a C program to calculate GCD and LCM of two numbers.
  - 12. Compute the binomial coefficient  ${}^{n}C_{r} = \frac{\angle n}{\angle n r \angle r}$ .

- Write a C program to implement stack operation using array.
- 14. Write a C program to check whether a no. is armstrong or not.
  - 15. Write a C program to generate Pascal's triangle.

BECCHAIN SERVICENTER AND ALCOHOLOGICAL BUT OF A STATE OF THE SERVICE OF THE SERVI

- Write a C program to generate all the armstrong no less than 1000.
- Write a C program to sort n numbers in descending order using selection sort algorithm.
  - 8. Write a C program to add & subtract two matrices.
  - 9. Print Sin Series and sum of the series  $\sin(x) = x x^3/3! + x^5/5! x^7/7!$
- Write a C program to check whether a string is palindrome or not.

	2.	Write	a (	C	program	to	sort	ten	numbers	using	quick-
sort	tecl	nnique.									

Write a C program to print fibonacci series using recursion.

4. Write a C program to print the following:

$$1 + \frac{x}{2} + \frac{x^2}{3} + \frac{x^3}{4} + \dots = \text{sum}$$

Find out the sum of above series.

commence outcome dominate commence

Write a C program to sort ten nos. using merge-sort technique.

Write a C program to find out sum of digits of a given nos.

Example:  $123 \rightarrow 6$ .

P-II(1+1+1)G/Pr/14

### 2014

# COMPUTER SCIENCE (General)

Sixth Paper (Group - B) [Practical]

Full Marks: 50 Time: Three Hours

(Program: 25, Algorithm or Flowchart: 10, Viva: 15)

The figures in the margin indicate full marks.

Answer any *one* question on lottery basis.

(Write an algorithm or flow-chart of your program)

1. Write a C program to print : (when n = 4)

1 0 1 1 0 1 0 1 0 1 12. Write a C program to sort your name.

Like: Rahul Kumar Roy → R. K. Roy.

13. Write a C program to count no. of vowel, consonant in a given string.

14. Write a C program to count no. of word and character in a given string.

15. Write a C program to sort ten nos. using Insertion sort techniques.

16. Write a C program to find out value of a quadratic equation.

11/1-125

(3)

7. Write a C program to find out prime nos. into 100 to 500.

8. Write a C program to print :

9. Write a C program to sort ten nos. using selection sort technique.

10. Write a C program to implement binary search technique using example.

11. Write a C program to implement PUSH and POP operation into a stack.

11/1-125
