## GOUR MAHAVIDYALAYA

### Celebration of World Environment Day

Organized by

Department of Geography and Eco Club  
In collaboration with NSS Units-I and II

**Better Late Than Never!**

Concerning the decreasing green cover and increasing concretisation of earth's surface in association with alarming rate of pollution of air, water, and land we are now confronting heavily the extreme weather events (cyclone, drought, flood, heat wave etc.), desertification, degradation of land, depletion of drinking water and natural resources, extinction of endangered species and many more.

All living creatures are being the sufferers in their own way. But the only culprit is none other than the human. We have already become environmental criminal!

We have no option, otherwise restoring the environment for atonement!

Let us discuss together, think, and try to understand the concerns deeply and modify our activities towards environment friendly and only then we shall be friendly with us!
