Brief introduce about Advance and Slow learners Monitoring System

Throughout the process of teaching and learning, teachers have to deal with different types of students; some are exceptionally intelligent and bright who understand, learn very fast and some are not as strong and some are quite weak to learn and grasp the instructions very slowly. Some students just need direction; some require hard work along with regular guidance and mentoring. In order to assess a student's proceeding for graduation, teachers must take into account their individual learning attitudes and habits. This way, advanced learners won't be turned off and solubility in a class, particularly when they are starting their higher education and w learners won't lose interest.

Our Aims and Objectives

We the Department of Arabic of Gour Mahavidyalaya, have initiated the academically 'slow & advanced learner' system. Our aim is to bring the best among the students. Advanced learners are motivated to strive for higher goals and are encouraged for higher studies. They are provided with additional inputs by offering special class.

The slow learners are never considered as poor achievers as that can hurt their motivation and their interest. This can eventually make them more distressed and introvert in the class. Hence, we treat them like any other student in the class but they are provided extra attention for improvement and achievement. The Department and every individual teacher help slow learners by providing proper guidance and support to them.

We encourage advanced learner to be supporters to the average and the slow learners as it will help to maintain the brotherhood among all students. We keep our advanced classes open to all and not limiting to advanced learners only.

Roles and Responsibilities of the subject Teacher

Subject Teacher is responsible for carrying out different aspects of slow learner and advanced learner identification and activities to be conducted:

- Conduction of class test
- Preparation of marking scheme and assessment rubrics
- Evaluation answer sheets and preparation result reports
- Identification of slow and advanced learners
- Preparation of schedule for extra classes/ problem solving sessions/ revision sessions for slow learners and maintenance of records
- Preparation of list of advanced assignments or task list for advanced learners
- Preparation of improvement reports
- Maintenance of activity outcome reports for slow and advanced learners

Process of Identification of Slow (Academically Weak)-Advance (Academically Advanced) Learners

The process of assessment and identification of learning levels of the students and conduction of activities there on should be carried out through a methodical technique:

- The slow and advanced learners would be identified based on class test exam conducted by respective department
- The process of identification would be confirm after declaration of result of Counselling test
- The following parameters would be considered for Slow and Advanced learners: > 60% for advanced learner and < 60% for Slow learner

Identification Test

Identification test for slow-Advanced learners have conducted on their respective topics on the Core Papers of 20 marks with one hour. Three types of questions are used in the examination paper; Short type questions carry 1 mark for each question, objective type questions carry 2 marks for each question and board type questions carry 4 marks for each question. If a student gets 12 marks and above out of 20 marks then he/she will be considered as advanced learner otherwise he/she will be considered as slow learner.

Conduction of activities for Slow learners:

- Provision of extra time in timetable for problem solving sessions/ revision session
- Make up classes and demonstration classes for more weak students
- Assignments in the form of solving previous years examination paper
- Supply of study materials and tasks for best practice
- Personal attention and counseling for providing special hints and problem solving techniques

A. Remedial Class

B. Special Class

C. Speaking and Written skill development activities

D. Problem Solving Session

A. Remedial Class

The Arabic department regularly organizes remedial classes one hour before/after class for slow learners. This class does not create persistent barriers for regular classes. Slow learners regularly are observed their progress through the classes.

B. Special Class

The department with a specific topic or purpose organizes special classes. Sometimes it is organized around a common theme with advanced and slower students.

C. Speaking and Written skill development activities

As Arabic language is a language of the Semitic group, its written and spoken style is very different from other languages. A regular and unique academic event is organized at departmental level to make it relatively easy for Indian students. The program of Speaking and writing skill development conducted by the department has been considered as a very fruitful academic program for the students.

D. Problem Solving Session

Problem solving method is a very important method for every stream of education. The department of Arabic organises a problem solving method twice or more in an Academic year.

Conduction of activities for advanced learners:

- Provided Special class for more advanced
- Advanced assignments or tasks like participation in Seminars /Conferences/ Technical events
- Contribution in questionnaire preparation and conduction of case studies and support in team building activities
- Arranged essay writing session
 - A. Special Class
 - B. Speaking and Written skill development activities
 - C. Essay writing

Our observations:

We, the faculties of the Arabic department, regularly analyse the progress of the students. We noticed that the performance in marks increased significantly situation, especially in slow learners. Our analyses further show that test result has drastically reduced the mark difference between slow and advanced students. Unfortunately, class responses do not always reflect the same as quality. We further believe that the 'Slow and Improved Student' system is still in its infancy in our department and we will evolve over time so that we can move our students towards a better future.
