1. Identification of Advanced and Slow Learners:

The criteria for identifying the Slow and Advanced learners are fixed in Departmental Committee meeting following the norms set down by the Academic Council of the College.

The Slow Learners & Advanced Learners are chosen based on the result of the Intern Exam of Semester- I and semester- III as well on the class performance and response of the students.

The annual university result is further consulted to update the existing lists of Slow and Advanced Learners. The progression or demotion of the students are assessed and are placed in the respective Advanced or Slow Learners Group.

2.Objectives:

The objectives of the creation of Slow and Advanced learners are two-fold:

- a.To address the problems of the Slow Learners and guide and assist them through extra problem solving sessions, material distribution and conduction of examination in their learning process.
- b.To guide and assist the Advanced Learners to realize their potential and prepared them for pursuit of further studies after the completion of graduation.

3.Proposed Strategies for Slow Learners:

To meet the objective of assisting the Slow Learners the following measures are proposed:

- 1)The learners are usually engaged thrice in a month to share their problems with their teachers. However, depending on the necessity of the learners the mentors/ teachers may increase or reduce the number of classes/ problem solving sessions.
- 2)They are encouraged to speak about their specific problems with the syllabus.
- 3)They are also asked to share whether there is any difficulty for them to adjust with the academic environment of the college as a whole.
- 4)They are also asked to share their problems at home which are severely affecting their study.
- 5)The problems are individually addressed & specific suggestions are provided.
- 6)Books are provided from the department. Sometimes teachers individually assist to the students.
- 7)Special classes are held, materials are provided and links for online learning platforms are shared with the students.
- 8)Students are encouraged for tests to assess their progress. Their answer scripts are checked and corrected. Suggestions are provided.

4.Proposed Strategies for Advanced Learners:

To meet the objective of assisting the advanced learners to get prepared for further studies the following strategies are proposed:

1. Special classes are held, materials are provided and links for online learning platforms are shared with the students.
- 2.Advanced students are encouraged to take part in student seminars/ workshops or colloquiums to keep them updated on various advancements in the field of English Studies.
- 3.Advanced Students are encouraged to study beyond their syllabus and books/ materials are shared with them.
4. They are especially encouraged to study the history of English literature and that of other literatures such as Sanskrit literature, German or French literature so that they can better prepare themselves to face the entrance exams of different Universities for masters program. The entrance exam questions of different universities are provided to them. It can also help them prepare for the national eligibility tests such as NET while studying in graduation itself.

Action taken report

Slow and advanced students are duly selected. In this case, as importance has been given to the class test, it has also been seen how the students are responding in the class. And thus after identifying slow and advanced students suitable academic plans were prepared for them. Separate additional classes were arranged for both Slow and Advanced. Supply of study material, additional tests were conducted and yielded good results. However, it is said that due to the outbreak of Corona, education has been particularly interrupted.

Head of the Department
