### Report on Continuous Internal Assessment (CIA) 2022-23

The evaluation is an integral part of the teaching-learning process. The Assessment is a form of educational examination that evaluates a student's progress throughout a prescribed course.

#### Aims and Objectives

The Continuous Internal Assessment aims to develop the students' progress purposely:

- Motivates students to make consistent progress throughout the semester, resulting in a comprehensive comprehension of the subject matter.
- Improves the pupils' capacity for critical and creative thought, teamwork, communication, leadership, and other skills.
- Enables students to demonstrate the application of skills and knowledge and to pursue their personal interests, without the time constraints and other limitations associated with written exams.
- Enables teachers to assess students' performance in accordance with the course objectives and distributes course material throughout the semester to help students feel less anxious about their end semester examination.

#### Evaluation Process and Reforms

We follow guidelines framed by University of Gour Banga, Malda, for the Internal Assessment of the theory and lab based practical. Furthermore, the institute has meticulously designed and executed the parallel mechanism to ensure students' preparedness. Every type of Internal Evaluation is maintained in complete transparency.

A comprehensive academic schedule, which includes the dates of all internal exams such as internal assessments, tutorial exams, test exams, and other evaluations, is prepared well in advance and displayed on the website and notice board for the students' consciousness. The college conducts Internal Assessment examination of 10 marks (4 marks attendance and 6 marks assessment) and Tutorial Examination 8 marks of each paper of non-lab based subject, and rest evaluation process of 32 marks is conducted by University of Gour Banga. The college conducts only 10 marks as the Internal Assessment (4 marks attendance and 6 marks assessment) and rest evaluation process of 40 marks (25 marks theory and 15 marks practical) is conducted by University of Gour Banga. methods are adopted which the board of studies of the concern department mainly suggests. The IQAC creates the academic calendar for the Institute while taking into account the rules set forth by the University Gour Banga, which cover all activities such as the execution of Continuous Internal Assessment (CIA), End Semester Examination, Certificate/Value Added Courses, and Placement Activities. However, **Continuous Internal Assessment**, which is conducted by the college through the concern department, does not disturb the evaluation system of the university in any way. Therefore, the process of continuous internal assessment is carried out with complete transparency.

### Multi-based Component (MBC) of Continuous Internal Assessment

We used the Multi-based Components for the internal assessments of the subjects, which are helpful for assessing the various abilities of the students that which cannot be tested, otherwise with the semester end examinations (SEE). The concerned faculty member will evaluate the performance of all the students internally on a continuous basis. Within the first fortnight of the semester, the faculty member would declare in the class the sort of a Multi-based component (MBC) of the assessment, which would be determined based on the predicted Course Outcomes (COs) in consultation with the students. Within the first fortnight of the semester, the faculty member would declare in the class the sort of a Multi-based component (MBC) of the assessment, which would be determined based on the predicted Course Outcomes (COs) in consultation with the students. The adopted list of these components is as given below:

### CIA Rules & Guidelines

- At the start of each semester, teachers should make the students aware about the course curriculum, its goals, the course outcomes, and learning activities including experiential learning and participatory learning.

- The teachers should also inform the students regarding various components of internal assessment and their weighted through a ‘course overview’.
- Within the first week of the semester, all teachers should have their lesson plans thoroughly prepared and shared with the students.
- To ensure sufficient transparency, the answer scripts for the Unit Tests should be shown to the students for their information following evaluation.
- If a student misses any part of the MBC due to extraordinary circumstances—for example, the death of any member of the family, an accident that requires hospitalization, the student being ill with a contagious disease, natural or social disasters that affect the student, or any other unavoidable circumstance the teacher thinks appropriate to take into account—the teacher will assign extra work or any other course-related assignments for those students.
- The department is responsible for keeping track of the CIA record and producing it upon request.

### Outcome of CIA

The present education system is based on student-centric outcome based education and accordingly we always try to explore the students' satisfaction in their studies. The continuous internal assessment of the students is an important tool for the measurement of quality improvement of students. Summative assessment encourages rote learning and learning for examinations and forces the students to “coaching culture” rather than regular formative assessment (continuous internal assessment). Assessment is absolutely a pronouncement of the developmental capability of the students, capturing knowledge and the prospect of scoring marks in university examination.

The teachers and mentors are encouraged to adopt various innovative assessment practices and tools that they may consider proper and fit for better and just assessment of their students.
