Session 1 - Child Introduction

Introduction class: where we discuss the difficulties of students in study and the stages of learning that we will through in Summer camp.

The students and our group together we started the journey of learning

Review :

- The main objective of Community Outreach Summer Camp was to create an education among students of the village and to make learning an enjoyable experience although the camp was planned 26 days, according to the problematic situation. We conducted classes for a total of **26** days because between the regular attendances and our other education responsibilities, it was not possible to present every day.

However within these 26 days, we tried our best to make the productive learning environment enjoyable.

Although the students were initially unsure of the familiar

Environment, they gradually opened up. Seeing the joy of learning in their eyes, it seemed that education can truly be enjoyable if its present properly. As a teacher myself I have learned patience and communication skills with children.

• Challenges:

- i) It was difficult to keep the children present everyday.
- ii) Some students were ~~sacre~~ scared and shy at first.
- iii) The weather made it impossible to run the camp for few days.

This 26 days camp, although fast but had a profound impact, there is a desire to operate such camps planning in the future.
