GOUR MAHAVIDYALAYA

SINCE 1985

GOUR MAHAVIDYAKLAYA

Gour Mahavidyalaya, situated on the north side of Mahananda River where N.H.34 passes through Mangalbari, Old Malda, started its journey in 5th day of September 1985 to cater to the needs of the people, mainly of the district, as well as, those of this locality.

In the field of higher education. Gour Mahavidyalaya, a premier institution for higher education of the Old Malda reserve constituency, has been trying continuing to free people from ignorance, superstition, bad habits and many wrong ideas on the one hand and provides the people of this locality with some skills.

A particular focus of the college's mission is to empower marginalized sections of society, including SC, ST, OBC, and Minority students, through education, training, and counseling.

MISSION

The college's mission is to promote the all-round development of its students and prepare them to become conscious and responsible citizens of the country.

It aims to equip students with theoretical knowledge and vocational expertise, keeping in mind the demands of the globalized knowledge economy. The college seeks to nurture thinkers and innovators capable of making a significant impact through their original and relevant ideas.

A particular focus of the college's mission is to empower marginalized sections of society, including SC, ST, OBC, and Minority students, through education, training, and counseling.

As part of its outreach and social responsibility, the college's NSS units engage in community-building programs, awareness campaigns, and the fight against social evils like untouchability.

The Ambedkar Study Centre, established under the UGC scheme, plays a crucial role in these efforts.

VISION

The vision of the college is to empower female students from far-flung villages through education and counseling, enabling them to combat gender bias in society and contribute to nation-building.

The college has constructed a women's hostel and plans to establish a center for Women's Studies to support this vision. The institution aims to reduce the rural-urban divide by providing relevant and quality education to students from both urban and rural areas. It offers financial assistance to economically disadvantaged but promising students through various funds to help them complete their desired degrees and prepare for jobs.

The college provides remedial coaching and coaching for entry into services to empower marginalized students in terms of caste, class, religion, and gender. There are plans to set up a language lab to enhance the communicative skills of students from marginalized sections of society.

FUTURE PLAN

In response to the changing knowledge and service economy, the college runs departments in fields like Computer Science, Bachelor of Computer Application, Mass Communication and Journalism, Food and Nutrition, and plans to offer additional courses to develop students' soft skills and provide them with necessary academic, vocational, and technical expertise for prospective job opportunities. The college is focused on revenue generation and has signed MOUs with relevant institutions, offering services like food

safety licenses and certified hallmarks (FSSAI Registration) to food business operators in the district. The college aims to preserve and encourage the study of the rich history of Malda, its district, by establishing a history museum within the institution. The college has experienced significant growth over the years and plans to continue expanding by introducing new academic subjects and elevating several undergraduate departments to the postgraduate level. The ultimate goal is to achieve autonomous status to ensure smooth functioning and effective implementation of its mission and vision.

AUDIT

QUESTIONS

PART-II

The auditors are guided by the questions given in each section in carrying out the academic audit of Departments. These questions guide the formulation of the Self-Evaluation Document (SED).

DEFINING INTENDED LEARNING OUTCOMES:

SL	Question	Answer
1	Do you seek external input in formulation of the learning outcomes?	Yes
2	If yes, how do you do it? For example, do you use survey or focus group interviews with employers and alumni?	We have signed MoUs with different state-bodies and NGOs. We work with them in extension activities. Apart from that, some of the Departments of the college like Sociology and Education have undertaken surveys with their help as part of the curriculum.
3	Are data from such surveys analysed so that you can establish a priori case? Explain.	Yes. The survey reports are analysed. The analyses feed into the teaching and learning process. The analyses is also published in the public domain and feed into the policies of local administration.
4	What have you learnt from former students and employers?	The college should initiate more career-oriented programs, incorporate entrepreneurship programmes, organise career fairs.
5	How do you ensure that there is convergence or agreement on the essential elements of the curriculum?	By facilitating the demands of the faculties and the students in consultation with the affiliated University.

DESIGNING TEACHING & LEARNING PROCESSES:

SL	Question	Answer
1	How are your courses managed?	The courses are managed through traditional lecture method, through virtual learning classrooms and ICT enabled classes. Online classes were conducted during the pandemic with the help of Google Classroom, Google Meet platform etc.
2	Is there an appropriate and up-to-date teaching and learning strategy in the Department?	Yes
3	How is teaching and learning organised for students?	Before initiation of each academic session, the Academic Council frames the Academic Calendar on the basis of the input received from each department. The Central Class Routine is prepared following the University guidelines. The Calendar is then circulated along with the PSOs and Cos to each faculty followed by the collection of teacher-wise syllabus distribution and curriculum planning.

4	What pedagogical approaches are used?	As set forth by the UGC, the State Government and the affiliating University from time to time.
5	What strategies are used to stimulate student participation in the classroom and enhance student learning?	As part of the student counselling, an Induction Programme is arranged at the beginning of each session, followed by a "Profile mapping". Apart from these, each department conducts Remedial Classes along with Mentor-mentee programme to enhance the issues of student participation and enhancement.
6	What resources are used in teaching and learning?	Text and reference books, journals, e-resources, lectures, films, multimedia, digital learning resources tools like ICT are frequently used by the faculties.
7	How is the quality of teaching maintained and enhanced? How do you ensure that strategies such as effective staff development, peer review , induction and mentoring are used?	Feedback from different stakeholders like students, faculties, alumni, parents and the employer. Parent-teacher meetings are frequently arranged by the departments. In addition to the mentioned activities, each department also arranges remedial classes (Slow and Advanced Learners Program) and implements a mentor-mentee program. These initiatives are designed to improve student participation and enhance their overall academic performance.
8	How effectively do lecturers draw upon their research, scholarship, or professional activity to inform their teaching?	1. Enhancing Teaching Material and Relevance: Teachers who actively use their research, scholarship or professional activity enrich their teching material with the newest and most relevant area of advancements. Students are kept updated by including research and real-world applications in lectures. This keeps the subject current, entertaining, and relevant to the students' career. 2. Critical Thinking and Analytical Skills: Teachers who use their research and professional expertise in their teaching inspire students to think critically and analytically. They teach students about research by sharing their own methods and experiences. This method enhances comprehension and fosters study and analysis. Workshops on Research Methodology are frequently arranged for the fulfilment of the said purpose. 3. Inspiring Student Engagement and Motivation: Actively incorporating research and professional activities into teaching helps to motivate the students. The students are also inspired to pursue their academic and professional goals by seeing their teachers engaged in innovative research or professional activities.
9	Is there any academic support including handbook and other written documents that is given to students?	Yes

10	Did the faculties engaged themselves for their Academic Development during this academic period?	Yes. The Faculties engaged themselves for various academic development activities like publishing papers in Journals, writing book chapters and editing books. Apart from these they have attended and presented papers in various Regional, National and International seminars, conferences and webinars.
